HEALING WITH FREQUENCY

Healing and revitalizing

“You are sipping your coffee sitting on the PolarAid. While you are chatting, the banal vaginal, and also serious gynaecological problems, go away. Along with them, the urinary difficulties and annoying haemorrhoids ...” This is what Serbian gynaecologist and obstetrician, Dr Dino Tomic claims. PolarAid, he is referring to, doesn’t have an effect only on women and their conditions. Men can use it for prostate complications, to improve libido and so improve their sex life...These are the effects of PolarAid, when we sit on it. We can place it on any part of our body and so eliminate other difficulties.

PolarAid, the outstanding aid, which the Serbian doctor heartily recommends to everyone for healing and revitalization, is a round plastic plate with seven metal, broken and concentric circles applied to it. The circles are thinning from the rim towards the centre, with the most outward circle measuring five millimetres in width and the seventh, the smallest, measuring only one millimetre.

“It is not right to label an illness as incurable and to limit the treatment to a lifelong addiction to medications, especially when we know that those illnesses were successfully cured decades ago,” first said the doctor, who also works at the Quantum One surgery in Belgrade and has been researching, for the past two decades, the curing methods outside the frames of the conventional medicine. He has experience in quantum medicine, bioenergetic medicine, homeopathy, acupuncture, is the connoisseur of the reconnective healing, reiki healing and new consciousness technology...

Q: What has drawn you to the treatments, which are not recognized by the conventional medicine?

As a gynaecologist I have soon reached an upper limit in what I was able to do for my patients, after that the things started revolving in a circle. That prompted me to seek other treatments. I worked and still work with the most modern medical devices. It is absurd that these modern diagnostic tools, such as EKG, EEG, EMG and MR, are not followed by equally modern treatments. We still prescribe pharmacological treatments, which are highly dubious because of their inefficiency and horrifying side effects.

Q: What is the solution?

In recognizing what is already known; Dr Georges Lakhovsky and Nikola Tesla have solved many people's health problems by using high frequency oscillators and vortex antennas. Take a look at the three photos of the female patient, which speak for themselves. They were taken in the forties of the last century. Using the high frequency oscillator the damage on the cheek was not only healed – the wrinkles were smoothed out, the skin is tightened and the hair thicker. Besides being cured, the person is rejuvenated. If that was possible then, why wouldn't it be possible now?

Q: And?

That is exactly why with my colleagues and engineers I am tackling this issue. We have bought and manufactured aids and devices, which were used some time ago, based on the original designs we acquired from the Museum of Nikola Tesla in Belgrade and other institutions, where they were available. The results we achieved with those devices are astonishing.

Q: For instance?

With the apparatus for the locomotor system, after just a few treatments, we remedied problems with the spine, joints, tendons ... in people, who suffered from those conditions for a prolonged period, despite classical medical treatments they underwent. We managed to cure some of the so called incurable illnesses, such as hypothyroidism or Hashimoto thyroiditis, in a short time, just as they managed decades ago.

Of all the techniques we employ, the one that fascinates me the most is the polarization disk, we call PolarAid.

Q: And that is...

It is an aid, with no electrical supply or magnetization, which achieves such effects and results that it deserves all of our attention and that we can only marvel. Polarization disk is utterly simple and highly efficient. It made all the years I invested into education and all my efforts look redundant - it made me realize that each person, using this simple antenna, without a single day of training, can become the most powerful healer.

Q: What enthralled you the most?

The treatment of the thyroid gland. We know this gland is the conductor of the body. When it is hypo functioning, the organs start deteriorating rapidly. This is accompanied by the development of the severe auto-immune illnesses and the accelerated aging. If we treat the thyroid gland with PolarAid for only five to ten minutes a day, by placing this light plastic disk on the throat, we can cure the hypothyroidism or promote vitality and reinvigoration in healthy individuals.

Q: How does PolarAid rejuvenate?

In women, the reduced ovary hormone activity fosters aging and causes a series of disorders, like osteoporosis, cardiovascular conditions, etc. When we place PolarAid on the lower abdomen, it stimulates and revives the ovaries. This way it establishes normal hormonal balance, prolongs vitality and inhibits aging of the body.

Q: And if we place it higher on the abdomen?

We stimulate the upper abdominal sections and so remedy the long time digestion and constipation problems; since this accelerates the intestines and thus metabolism, the body weight is also balanced.

Q: What if we place the disk on the forehead?

Then it affects sinuses; some patients were in disbelief at what secreted from their heads.

Q: Does it help with sleeping disorders?

Yes, we lay the disk beside the bed or under the pillow.

Q: Does PolarAid come with instructions?

Yes, rather detailed ones. The simplest instruction is to place it on the spot where we feel something is wrong. Otherwise, the instructions guide you in placing the disk on chakras. Doing so, we charge our energy centres, which supply the organs with vital energy.

Q: Does it affect the whole body?

Of course. There is no health aspect that it does not affect positively. It is very important that there is no radiation, no magnetic waves, no adverse effects. And it works over the clothes.

Q: What if we do not hold it close to the body?

It functions in rooms too. It will clean them, for instance the bedroom, living room, office, the space where you spend time with others. It neutralizes the negative energy, emitted by people. That is why advise to have it always close to you. It is an inexhaustible source of the life energy. Observe the mood of your family members or co-workers. You will be pleasantly surprised.

Q: What do the animals "say"?

If you lay PolarAid on your dog's or other pet's bed, they will not let you take it back. They instinctively sense it is beneficial to them. That is also how kids react. It soothes them and they are not willing to give it back. It also affects the plants. If you put it under the pot, you will notice the favourable change on the plant. I also advise you to put it under the glass from which you are drinking, or under the plate you eat from. It improves the taste, cleans it of negative energy ...

Q: How does it function?

It works on principles of physics. It amplifies the influx of vital energy to our body and excites it, to heal itself in a purely natural way. It increases the inflow of bioenergy. Our body has all the self-healing mechanisms at its disposal, and they function flawlessly and cannot be overdosed.

Q: Does one feel its action?

Everyone without exception feels a certain sensation on a specific spot of the body. The examples of those sensations are increased pain, burning, pressure, tearing, prickling, tingling,

heat, increased activity of intestines, and alike. Those whose health is worse at the beginning can experience more of these sensations. But there's no reason for fear. This only proves that there is a problem on a certain spot and that the body has triggered the actions to mend it. With each day of usage, these sensations are less present and in a few days they fade away completely. It happens when the problem is solved or the toxins removed.

All living beings transmit vibrating energy and they also receive it

Healing with electric fields

In the period from 1900 to 1940 George Lakhovsky sparked a revolution in healing. For healing purposes he started using the multiwave device that generated the electric field; this device is still used by healers in Europe and also in Slovenia: copper bands, used today by millions to relieve or ease the pain or broken copper coils – today's aid named PolarAid.

Brilliant scientist has formulated the hypothesis that all living beings transmit and receive vibrating energy. In order to test his hypothesis he developed the radio cellular oscillator and used it to prove, that a cell is a transmitter and receiver of the waves. He tried out his device in France, in the Salpêtrière hospital, at geranium plants inoculated with cancer tumors. Oscillating circles, at first copper and later from other metals, without artificial excitation, were efficient in treating the geranium plants. In the same manner, the PolarAid receives the bioenergy from the surrounding space, without any excitation, either electric or magnetic. Due to the limited reach and efficiency of the first short-wave oscillator, Lakhovsky constructed the new Multiple Wave Oscillator (MWO) – more efficient device that generated electric field of multiple wave-lengths. In reality, the idea can be attributed to Nikola Tesla, whom Lakhovsky contacted for assistance on several occasions. The effect of MWO was tested at several French clinics, where several cancer patients were successfully treated. When he was asked by a friend why he hadn't charge for the healing, Lakhovsky responded: "I have dedicated all my life and money to combating cancer. My greatest reward is to see that unfortunate persons are cured by my device. There is no greater beauty than to see those patients, after many years, still healthy beaming with strength and to see in their eyes gratitude and respect. This, for me, is worthier than all the rewards and acknowledgments in the world!" In order to avoid Nazism, in 1940 Lakhovsky moved to USA. In New York he was greeted and accepted by Dr Disraeli Kobak, who cured, in the period from 1941 to 1958, using MWO, several thousand patients, suffering diverse illnesses. Lakhovsky died in 1942 in a Brooklyn hospital, from the consequences of the accident. He was hit by a car and, in spite of his opposition, admitted to the hospital from which he did not return alive. The circumstances of his death were considered by many as suspicious.

THE CELLS VIBRATE

After fifteen years, veterinaries, doctors and surgeons begun using the device in treatment of various conditions, mostly in Austria, Belgium, Canada, Germany, Luxemburg, Monaco, Morocco, Italy, Philippines, Portugal, Russia, Spain, San Marino, Switzerland and USA.

George Lakhovsky's theory of cellular oscillations holds that cells are small oscillating circuits that radiate ultra-short electromagnetic waves. Similar to the waves radiated by the stars. Life processes on Earth happen because of the resonance that exists between cells and stellar radiation. Consequently, the crystalline structure affects the absorption and reflection of the cosmic waves. In his book *L'Univers*, Lakhovsky described the theory of universal source of life and matter.

The core of his theory is not in a powerful electromagnetic or electrostatic field, but in the broad frequency range generated with very low voltage. With the right usage, the amount of cosmic energy created is significant.

The cosmic energy is the main factor in establishing the equilibrium and harmony both mental and physical. Because it vibrates correctly and provides the right polarity, one can recover very quickly and regenerate the damaged cells.

THE RESONANCE CICLE

The multiple wavelength oscillator enables us to create order from chaos; it enables the cosmic energy to flow again. We all are energy antennas. Part of the energy we need, we produce from food. The rest of it we gain by other means. In the same manner, we can store energy as pure matter.

The usage range of the multiple wave device is broad, for instance, we can boost the effect of homeopathic medications. We can use it to polarize water, so detoxing it from impurities or toxic ingredients. The wine will taste fuller, and the coffee smoother. A few drops of polarized water will make plants grow quicker, more beautiful and bear fruit sooner.

Lakhovsky believed that each of our cells has a minute long resonance cycle and that if the cells oscillate correctly, we, and any other living organism, are healthy. If an external source causes the oscillations to change their pace, the illness ensues. In his book *The Secret of Life* he wrote: "What is life? It is a dynamic equilibrium of all cells, harmony, which is the result of multifold radiations, causing the cells to respond to each other.

What is illness? An illness is unbalance vibrating of cells, caused by many factors. The illness is a fight between the radiation of microbes and the radio of cells. If microbe radiation prevails, the body becomes ill."

He showed that the multiple wave oscillator facilitates the correct vibrating of our cells, while too potent or poorly controlled radiation causes irregular oscillations.

SOLVES OBESITY

In order to lose the excess weight, we place the disk every day at the middle of the abdomen, between the navel and the sternum, for five to ten minutes.

PLACING ON CHAKRAS

1st chakra – for 10 minutes place the disk between your legs, in the area between your genitals and anus. Or simply, sit on it. (for anal infections and infections of outer genitalia, irregular period, vaginal itching, vaginitis, vulvovaginitis, urinary tract inflammations, hemorrhoids, penis pain, impotence, prostate hypertrophic prostate).

2nd chakra – For 10 minutes place the disk on the lower abdomen, above the pubic bone in the area above the bladder. This is an important gynaecological spot. (For all period related

conditions, vaginitis and extensive vaginal secretion, itching vulva, male or female sterility, urinary problems, ureter inflammation, uncontrolled and night urination, hypertrophic prostate, impotence, intestinal bloating, constipation, diarrhea, lasy intestines, cramps, kidney problems, lumbago, general weakness).

3rd chakra – for 10 minutes place the disk above the stomach, in the dimple under the rib juncture. (For digestive and gastric disorders, stomach pain, ulcers on duodenum or stomach, weakness, abdominal bloating, headache, insomnia, palpitation, high blood pressure, depression, anxiety).

4th chakra – for 10 minutes place the disk at the middle of the sternum. (For bronchitis, asthma, cough, heart conditions, chest pain, palpitation, breast pain, anxiety).

5th chakra – for 10 minutes place the disk at the lower part of your neck, in the dimple above the sternum. (For thyroiditis, hypothyroidism – Hashimoto, all thyroid disorders, bronchial asthma, oral cavity issues, teeth and gum issues, throat and tonsil inflammation, apoplexy).

6th chakra – place the disk at the middle of your forehead, for at most 2 – 3 minutes. Older people even shorter! (For headache, issues with sight and hearing, sinusitis, vertigo).

7th chakra – place the disk on the top of your head, on the line that connects tips of the ears, for at most 2 – 3 minutes. Older people even shorter! (For neural disorders, insomnia, all cerebral disorders, apoplexy, spasms, contractions).

USER EXPERIENCES

B.Š: The disk stayed overnight on my night table and I slept like a baby until morning. For two weeks I have been waking up in the night, sweating, since I am in menopause.

V.D: I sleep with PolarAid besides my pillow. I wake up as fresh as a daisy – no more hard neck.

T.K: I harmed my arm. I placed the disk for about 10-15 minutes on the painful spot and the pain went away, fantastic!

L.K: For three years I had excruciating pain in the head, 2 cm left of the temples. All radiographic diagnostics were performed, medications did not work. I used PolarAid on that spot, for 2 – 3 minutes and the pain went away completely.

A.F: I placed PolarAid on my seven year old's stomach, for 10 minutes and he did not ask to eat until 20.30. Otherwise, he is always hungry and would eat every two hours.

M.J: I bought PolarAid and I am more than satisfied. I feel its magnificent energy. Thank you.

Obujen pripomoček: polarizacijski disk, imenovan polaris

Zdravljenje in pomlajevanje

»Medtem ko piješ kavo, sediš na Polarisu. Malo pokleptaš in se znebiš najbolj banalnih vaginalnih infekcij pa tudi zelo resnih ginekoloških težav. Ob tem ponenjajo še urinarne tegobe, izginejo zoprni hemoroidi ...« Tako zatrjuje srbski ginekolog in porodničar dr. Dino Tomić. Polaris pa, o katerem pripoveduje, ne deluje le na ženske in njihove težave. Moški si z njim pomagajo pri težavah s prostato, si izboljšajo libido in s tem tudi spolno življenje ... Tako polaris deluje, kadar sedemo nanj. Lahko pa ga polagamo po vsem telesu in si odpravljamo najrazličnejše tegobe.

Polaris, ki ga kot izjemen pripomoček za zdravljenje in pomlajevanje vsem ljudem priporoča srbski zdravnik, je okrogla plastična plošča, na katero je koncentrično nanesenih sedem prekinjenih kovinskih krogov, ki se tanjšajo od oboda proti središču kroga. Obodni prekinjeni krog je širok pet milimetrov, sedmi najmanjši v centru je širok le en milimeter.

»Ni prav, da marsikatero bolezen prepoznavamo za neozdravljivo in da zdravljenje omejimo na dosmrtno odvisnost od zdravil, če pa vemo, da so te bolezni pred desetletji uspešno zdravili,« je dejal na začetku pogovora zdravnik, ki dela tudi v beograjski ordinaciji Quantum One in se že kaki dve desetletji ukvarja z raziskovanjem načinov zdravljenja zunaj okvirov klasične medicine. Ukvarja se s kvantno in bioenergjsko medicino, je homeopat in

akupunkturist, poznavalec ponovne povezanosti, reikija, nove tehnologije zavesti ...

Kaj vas je pritegnilo v zdravljenja, ki niso priznana v medicini?

Kot ginekolog sem v klasični medicini kmalu dosegel gornjo mejo, do katere lahko pomagam bolnicam, potem pa so se začele stvari vrteti v krogu. To me je vzpodbudilo, da iščem še druge načine zdravljenja. Delal sem in delam z najsodobnejšimi napravami. Absurd je,

da diagnostike z EKG, EEG, EMG, magnetno resonanco in drugimi podobnimi napravami ne spremlja tudi takšno zdravljenje. Da ostajamo pri uporabi farmakoloških preparatov, ki so vse bolj vprašljivi zaradi neuspešnosti in grozljivih stranskih učinkov.

Kje je rešitev?

V spoznavanju že znanega; dr. Georges Lakhovsky in Nikola Tesla sta z uporabo svojih visokofrekvenčnih oscilatorjev in vortex anten mnogim ljudem rešila njihove raznolike zdravstvene težave. Poglejte tri slike pacientke, ki govorijo same zase in so posnete v štiridesetih letih prejšnjega stoletja. Z visokofrekvenčnim oscilatorjem ni le odpravljena poškodba na obrazu, temveč so tudi izgubile gube, koža je napeta, lasje so gostejši. Oseba ni samo ozdravljena, temveč tudi pomlajena. Če je bilo to mogoče tedaj, zakaj ni mogoče tudi sedaj?

In?

Prav zato se s kolegi zdravniki in inženirji ukvarjam s to problematiko. Kupili in naredili smo naprave, ki so jih nekdanje uporabljali, pridobili smo izvirne sheme iz Muzeja Nikole Tesle v Beogradu in od drugod, kjer so bile pač dostopne. Rezultati, ki smo jih dosegli s temi napravami, so presenetljivi.

Na primer?

Z aparatom za lokomotorni sistem smo že po nekaj obravnavah odpravili težave s hrbtenico, sklepi, tetivami ... ljudem, ki so imeli dolga leta zdravstvene težave kljub klasičnim medicinskim postopkom. Nekatere tako imenovane nezdravljive bolezni, kot je denimo hipoti-

Od vse tehnike, ki jo uporabljamo, me je najbolj navdušila polarizacijska antena oziroma polarizacijski disk, ki mu pravimo Polaris.

In to je ...

To je naprava, ki brez kakega električnega napajanja ali magnetnega delovanja dosega take učinke in rezultate, da si zasluži vso našo pozornost in se ji lahko samo čudimo. Polarizacijski disk je povsem enostaven in zelo učinkovit. Ob njem so postala vprašljiva vsa moja leta učenja in prizadevanja, saj sem spoznal, da lahko vsak človek, brez enega samega dne kakršnega koli učenja s to preprosto anteno postane najmočnejši vrhunski zdravilec.

Kaj vas je najbolj navdušilo?

Živa bitja oddajajo vibracijsko energijo in jo tudi prejemajo

Zdravljenje z električnimi polji

George Lakhovsky je v letih od 1900 do 1940 povzročil pravcato zdravilsko revolucijo. Za zdravljenje je začel uporabljati večvalovno napravo za ustvarjanje električnih polj, ki jo še danes uporabljajo zdravniki po vsej Evropi in tudi v Sloveniji; bakrene zapestnice, s katerimi si še dandanes več kot milijon ljudi odpravlja ali vsaj lajša bolečine; in prekinjene bakrene kroge – današnja naprava z imenom Polaris.

Briljantni znanstvenik je postavil hipotezo, da živa bitja oddajajo vibracijsko energijo in jo tudi prejemajo. Da bi teorijo preizkusil, je izumil radijski celični oscilator, s katerim je dokazoval, da je celica prenosnik in sprejemnik valov. Napravo je testiral v Franciji v bolnišnici Salpêtrière na pelargonijah, ki so jim vcepili raka. Oscilirajoči krogi, sprva bakreni in kasneje iz

različnih kovin, so bili brez umetnega spodbujanja učinkoviti pri zdravljenju pelargonij. Tako tudi Polaris zajema bioenergijo iz prostora brez vsakega vzpodbujanja, bodisi električnega ali magnetnega.

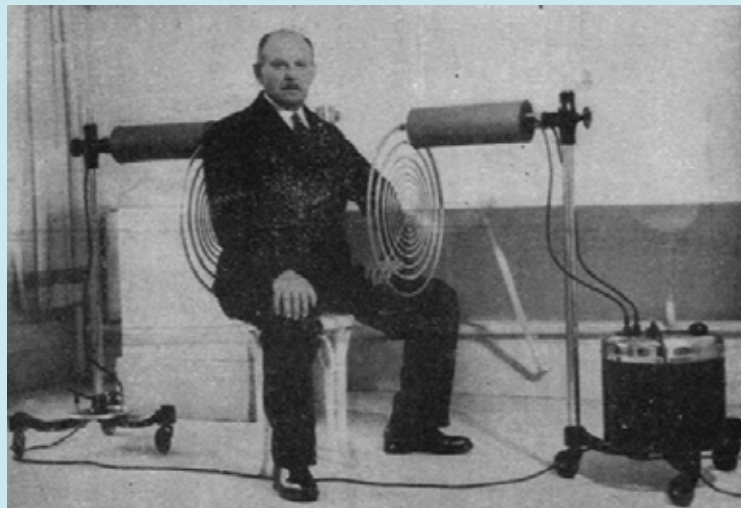

Zaradi omejenega dosega in učinkovitosti prvega kratkovalovnega oscilatorja je Lak-

hovsky razvil MWO – bolj učinkovito večvalovno napravo za ustvarjanje električnih polj, ki deluje na različnih valovnih dolžinah. V resnici je bila to ideja Nikole Tesle, na katerega se je Lakhovsky večkrat obrnil po pomoč. Učinek MWO-ja je preizkusil v več francoskih klinikah in s pomočjo te naprave ozdravil

nekatero rakavo paciente. Na vprašanje enega od prijateljev, zakaj ni vzel plačila za zdravljenje, je Lakhovsky odgovoril:

»Svoje življenje in ves svoj denar sem posvetil boju proti raku. Največja nagrada je, ko vidim, da so ubogi ljudje ozdravljeni s pomočjo moje naprave. Ni lepšega, kot videti paciente po mnogih letih še vedno zdrave in polne moči in v njihovih očeh videti zahvalo in spoštovanje. Zame je to več vredno kot vse nagrade in zahvale na svetu!«

Leta 1940 se je Lakhovsky, da bi se izognil nacizmu, preselil v ZDA. V New Yorku ga je pozdravil in sprejel zdravnik Disraeli Kobak, z MWO pa naj bi od leta 1941 do 1958 pozdravil več tisoč bolnikov, ki so trpeli za različnimi boleznimi. Umrl je leta 1942 v bolnišnici v Brooklynu, za posledicami nesreče. Med biva-

glo propadati. Pojavijo se težke avtoimunске bolezni, organizem se hitro stara. Če za ščitnico s polarisom poskrbimo le pet do deset minut na dan, tako da na vrat položimo ta lahek plastični disk, se ne samo rešimo hipotireoze, temveč pri zdravih ljudeh dosežemo izjemno vitalnost in pomlajevanje.

Kako polaris pomlajuje?

Zmanjšana hormonska aktivnost jajčnikov pospešuje staranje in povzroča vrsto bolezni, denimo osteoporozo, srčnožilne bolezni itd. Ko položimo polaris na spodnji del trebuha, stimulira in revitalizira jajčnike in s tem vzpostavi normalen hormonski status ter podaljšuje vitalnost in upočasnjuje staranje organizma.

ODPRAVLJA DEBELOST

Da bi se znebili odvečne telesne teže, polagamo disk vsak dan na sredo trebuha med popek in prsniico za pet do deset minut.

In če ga damo višje na trebuh?

Če stimuliramo višje dele na trebuhu, se rešujejo dolgoletne težave s prebavo in zaprtjem; glede na hitrejšo delovanje črevesja in vsega metabolizma pa se uravnoveša tudi telesna teža.

Kaj pa če damo disk na čelo?

Deluje na sinuse; nekateri bolniki niso mogli verjeti, kaj vse je prišlo iz njihove glave.

njem v Ameriki ga je povozil avto in kljub njegovemu nasprotovanju so ga sprejeli v bolnišnico, iz katere se ni nikoli vrnil živ, kar je bilo mnogim sumljivo.

CELICE VIBRIRAJO

Po kakih petnajstih letih so večvalovno napravo za ustvarjanje električnih polj začeli uporabljati veterinarji, zdravniki in kirurgi za zdravljenje več bolezni, predvsem v Avstriji, Belgiji, Kanadi, Nemčiji, Luksemburgu, Monaku, Maroku, Italiji, na Filipinih, Portugalskem, v Rusiji, Španiji, San Marinu, Švici in ZDA.

George Lakhovsky kot odlični znanstvenik razlaga svojo teorijo celične oscilacije, po kateri so celice majhni vibrirajoči krogi, ki oddajajo ultrakratke elektromagnetne valove. Podobno kot valovi, ki jih oddajajo zvezde. Življenjski procesi na Zemlji se zgodijo zaradi resonance med celicami in valovi zvezd. Posledično kristalna struktura vpliva

na absorpcijo in refleksijo vesoljnih valov. Lakhovsky je v knjigi *L'Universion* opisal teorijo univerzalnega vira življenja in materije.

Bistvo njegove tehnike ni močno elektromagnetno ali elektrostatično polje, ampak širok frekvenčni spekter s svojimi harmonijami in zelo visokimi napetostmi. Ob pravilni uporabi lahko ustvari ogromne količine kozmične energije.

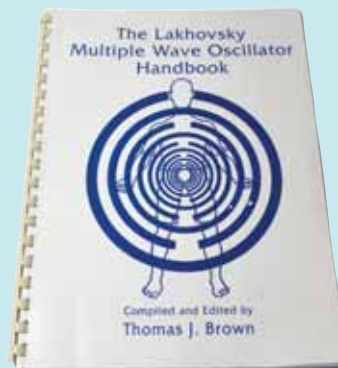

Kozmična energija je glavni dejavnik pri ponovni vzpostavitvi ravnovesja in harmonije v duševnem in fizičnem smislu. Ker oddaja pravilno vibracijo in polarnost, si človek lahko zelo hitro opomore in celo obnovi poškodovane celice.

RESONANČNI CIKEL

Večvalovna naprava za ustvarjanje električnih polj omogoča, da ustvarimo red iz kaosa; omogoča, da kozmična energija spet teče. Saj smo vsi energijske antene. Iz hra-

ne dobimo le del energije, ki jo potrebujemo. Preostalo potrebno energijo dobimo drugje. Prav tako lahko shranimo te oblike energije v obliki čiste snovi.

Večvalovno napravo za ustvarjanje električnih polj uporabljajo marsikje, na primer za povečanje učinka homeopatskih zdravil. Z napravo lahko polariziramo vodo in tako razstrupljamo nečistoče oziroma strupene snovi. Okus vina postane polnejši, okus kave bolj gladek. Nekaj kapljic take vode omogoča, da rastline rastejo hitreje, lepše cvetijo in hitreje obrodijo sadove.

Priročnik o delu Lakhovskega

Lakhovsky je verjel, da ima sleherna naša celica minuto dolg resonančni cikel in če celice nihajo pravilno, smo lahko ljudje ali katerokoli drugo bitje zdravi. Če nek zunanji vir povzroči, da naše celice nihajo z različno hitrostjo, pa nastopi bolezen. V svoji knjigi *Skrivenost življenja* (The Secret of Life) je zapisal:

»Kaj je življenje? To je dinamično ravnovesje vseh celic, harmonija, ki nastane zaradi multiplega sevanja, zaradi katerega se celice odzivajo druga na drugo.

Kaj je bolezen? Bolezen je neuravnovešeno nihanje celic, vzrokov za to pa je več. Bolezen je boj med sevanjem mikrobov in celičnim sevanjem. Če prevladuje sevanje mikrobov, to vodi v bolezen.«

Dokazal je, da večvalovna naprava za ustvarjanje električnih polj omogoča, da naša telesa nihajo pravilno, medtem ko premočno ali moteno sevanje povzroči nepravilna nihanja.

B. Č. ❁

Pomaga pri spanju?

Da, položimo ga poleg postelje ali pa pod vzglavnik.

So polarisu priložena kaka navodila?

Da, dokaj natančna. Najbolj enostavno ga uporabimo tako, da ga damo na mesto, kjer je kaj narobe. Sicer pa nas navodila usmerjajo, kako ga polagamo na čakre. Tako polnimo energijske centre, ki oskrbujejo organe z vitalno energijo.

Deluje na vse telo?

Seveda. Ni nobenega vidika zdravja, na katerega se ne bi odzval pozitivno. In pomembno je, da ni nobenega sevanja, nobenih magnetnih valov, nobenih stranskih učinkov. In da deluje prek oblačil.

Kaj pa če ga nimamo na sebi?

Deluje tudi v prostoru. Očisti prostor, denimo spalnico, dnevno sobo, pisarno, kjer delate s sodelavci. Izniči negativne

IZKUŠNJE UPORABNIKOV

B. Š.: Disk sem sinoči imela na nočni omarici in sem spala do jutra kot dojenček. Sicer se že dva tedna ponoči zbujam s povsem preznojeno glavo, sem namreč v menopavzi.

V. D.: Spim s Polarisom poleg blazine. Zbudim se spočita in nimam več trdega vratu.

T. K.: Poškodovala sem si roko. Disk sem imela 10–15 minut na bolečem mestu in bolečina je povsem izginila, fantastično!

L. K.: Tri leta sem imela kljuvajoče bolečine v glavi 2 cm levo od teme-na. Vse so mi snemali, a niso nič našli, zdravila pa slabo primejo. Dajala sem si polaris na to mesto po 2 do 3 minute in bolečina je popolnoma izginila.

A. F.: Sedemletnemu sinu sem držala disk deset minut na trebuhu in potem ni zahteval hrane do pol devetih zvečer. Sicer je stalno lačen in bi jedel vsaki dve uri.

M. J.: Kupila sem Polaris in sem več kot zadovoljna. Čutim njegovo čudovito energijo. Najlepša hvala.

POLAGANJE NA ČAKRE

1. čakra – Za 10 minut položite disk med noge, med genitalije in anus. Ali pa enostavno sedite nanj. (Za vse analne infekcije in infekcije zunanjih spolnih organov, neurejeno menstruacijo, srbenje vagine, vaginitis, vulvitis, vnetje urinskih kanalov, hemoroide, bolečine v penisu, impotenco, hipertrofijo prostate.)

Kaj pa »pravijo« živali?

Če položite polaris na ležišče psa ali drugega hišnega ljubljence, vam ne bo pustil, da mu ga vzamete. Instinktivno čuti, da mu dobro dene. Tako se odzivajo tudi majhni otroci. Kako deluje?

Na principih čiste fizike, večkratno ojača dotok vitalne energije v naš organizem

in ga vzpodbudi, da se sam pozdravi na povsem naraven način. Poveča priliv bioenergije. V našem organizmu imamo vse mehanizme samozdravljenja in vsa naravna zdravila, ki delujejo brez napak in se ne morejo predozirati.

Se čuti, kako deluje?

Vsakdo brez izjeme občuti neko dogajanje na določenem delu telesa. To je lahko povečana bolečina, pekoč občutek, pritisk, trganje, ščipanje, mravljinčenje, toplota pa tudi okrepljeno delovanje črevesja in podobno. Tisti s slabšim zdravjem imajo na začetku več tegob. Ampak to nas ne sme prestrašiti. To le dokazuje, da imamo na določenem mestu težavo in da je organizem že krenil, da to popravi. Vsak dan je teh neprijetnih občutkov manj in po nekaj dneh izzvenijo. Tedaj pač, ko je problem rešen ali so strupi odstranjeni.
