

POLARAID™

HEALTH AT YOUR FINGERTIPS!
Created by Georges Lakhovsky and Nikola Tesla

A POLARIZING DISC THAT OUR CLIENTS HAVE USED TO IMPROVE THEIR HEALTH ISSUES:

Gynecological, urological and menopause problems, weakened libido and potency, obesity, hemorrhoids, constipation and intestinal problems, painful joints and spine, all kinds of pain, pulmonary and cardiovascular problems, thyroiditis, sinusitis, headache, mood disorders, etc.

Bioenergy transmitted by the PolarAid™ disc is building a network of people connected to the idea that we need to take our own health care in hand. Dr. Tomić, recently in Montreal, was pleased to meet and listen to Polaraid users' comments and questions.

Dr. Tomić says, "My observation is that a person's health preoccupations do not differ from one country to the other and what we have seen as a health improvement with the PolarAid™ disc being integrated in people's health management is similar from country to country."

He continues, "I was happy to hear from all who have found support in bioenergy for their painful conditions and I feel enormous gratitude for this great invention to Dr. George Lakhovsky and Nikola Tesla."

Here are some of the questions discussed during the meeting with Dr. Tomić:

How much time should we apply the disc on the body?

"As with food and water, needed quantity is never the same for two people; this also applies to bioenergy. Instructions are given as a baseline for us to start to supplement our body cells with vital energy and to experiment with the disc in listening to our

body, so that we dose it in meeting our body's needs."

When is it best to use the disc?

"We may use the disc any time during the day but best is in the morning when there is neither noise nor activity around. Then, we can focus on our senses and listen to our body to better understand its signals."

Do I only need to treat my chakras or can I also treat painful areas?

"In directing the bioenergy through our chakras to connected organs, we actually tone up all organs, and we synchronize and optimize their function. This allows our body to restore its self-healing capabilities. However when we have pain or we know that one organ has been weakened, we have to supply vital energy on a daily basis in applying the disc directly on the area or the organ to reduce the inflammation. I always like to make comparison with simple things. For example, if you ask me if in your garden you should water only your cucumbers, my response is that it is better to water the WHOLE garden."

What are the new findings?

"In my hospital, we have done colour Doppler measurements of blood circulation in the carotids when applying the polarization

disc and have found a 30% increase in the blood flow which will bring more oxygen and nutrients to the brain.

We have also determined that by applying the disc on solar plexus for 15-20 minutes, bioenergy relaxes the big arteries and veins in the stomach and every blood pressure measurement done after the PolarAid™ disc application showed reduction by 10 to 15 mg Hg. In ophthalmology clinical tests, we are following eye disorders such as cataract and glaucoma and so far have seen encouraging results.

A new video posted on our website shows how easy it is to integrate the disc utilization in our daily routines and hope you will all adopt PolarAid™ to your full satisfaction.

Till we meet again I wish you all good health and a quality of life which fully supports you in fulfilling all your projects."

Dr. Dino Tomić currently works as a medical doctor, specializing in gynecology and obstetrics. For the past 20 years, he has explored and experimented with alternative medicines such as quantum and bioresonance medicine, homeopathy, acupuncture, and energy techniques.
