

PolarAid – Energy that heals and rejuvenates

It has been known for a long that human beings have electromagnetic features. It has been scientifically proven, and many diagnostic procedures in modern medicine are based on measuring of our electromagnetic parameters, and thus assessing the overall level of our physical health or functioning of certain organs. The best known of these methods are: ECG, EEG, EMG, magnetic resonance and some other lesser known.

However, it is absurd that the above diagnostics is not followed by appropriate method of medical treatment but everything is attributed to using of pharmacological preparations which are increasingly coming into question because of their inefficiency and horrific side effects. Is it reasonable that some diseases are declared incurable and that the treatment consists of a lifelong dependence on medication, if it is known that the same diseases were successfully treated a few decades ago?

Georges Lakhovsky and Nikola Tesla have achieved the amazing results with application of their high-frequency oscillators and vortex antennas on a large number of patients with a variety of health problems. Figures 1, 2 and 3 are self-explanatory. They have been taken in 40's of the last century. If you see the Figure 3 more thoroughly, you will notice that not only changes disappeared from the patient's face, but the wrinkles were ironed out, the skin became tighten, and the hair became thicker. The person in the picture was not only healed but significantly and visibly rejuvenated. If it was possible so many years ago, what is possible to do today?

WORK WITH VIBRATION DEVICES

Fascinated by this story, I and some of my fellow doctors and engineers have been dealing with these problems. We managed to procure and to make the most of the equipment and devices that were once used. In fact, we procured the original schemes from the Nikola

Tesla Museum in Belgrade and from different parts of the world, wherever they were available. We have managed to solve the problems our patients struggled with for years. Only a few treatments were enough to solve their problems with locomotor apparatus (the spine, joints, tendons, ligaments). Conventional medicine could not help them with these problems. We have managed to cure some of the so-called "incurable" diseases, such as hypothyroidism (Hashimoto's disease), in the same way as Georges Lakhovsky and Nikola Tesla did many years ago.

However, taking into account all the techniques we used, I was most impressed by the polarization antenna or a polarization disc - POLARAID. It is a small device with no supply of electrical power, but it achieves fantastic effects and results in a person who uses it. As a doctor-gynecologist, I have reached the top in the conventional medicine very soon.

After that limit everything began to spin in a circle and I tried to find new methods of healing, so I completed the quantum medicine, acupuncture, homeopathy, MRT, energy methods such as reconnection, reiki and some of the newer technologies of consciousness. I was working with the most modern diagnostic and therapeutic devices that go beyond today's conventional medicine for thousands of years. But PolarAid impressed me by its ease of use and efficiency. Many years of my learning and efforts have been brought into question when I realized that every person, without a single day of training, with PolarAid in his/her hands becomes the most powerful, supreme healer.

We conducted different experiments with this simple device. Some of them were conducted on plants. Plants that were exposed to the effect of PolarAid have grown much faster than others. You can see it in the photo bellow. It is obvious that wheat treated with polarization disc has a larger mass by at least 30 percent, its leaves are longer and more viable, while the leaves of another plant are bent and shorter.

USER TESTIMONIALS

The same happens with the human body: many health problems disappear in a very short time and the body becomes vital.

The thyroid gland is believed to be the conductor of the whole body functioning. If it does not function properly, the body organs deteriorate, ageing is accelerated and many other health

problems arise. You are recommended to treat this point from 5 to 10 minutes for the purpose of preserving the overall health and prolonged youthful appearance.

Now we have the feedbacks from hundreds of users of PolarAid. Their feedbacks range from those who express their gratitude to those ones who could not sleep for years until now with PolarAid placed bedside their bed. They sleep like babies. Also, there are those ones who have had a variety of other health problems, and now they no longer have such problems.

PolarAid proved to be extraordinary within my gynecological practice. I advised my patients to sit on POLARAID while drinking coffee and talking with their friends. It was very satisfying therapeutic time to resolve all sorts of their problems, ranging from the most banal vaginal infections to more serious gynecological problems. At the same time they would get rid of some persistent urinary symptoms or annoying hemorrhoids. Using the same procedure, sitting on a disk or holding PolarAid between their legs while lying down, the men would recover their prostate, improve their libido and their sex life.

We know also that reduction or cessation of ovarian hormonal activity in women, leads to accelerated aging and deterioration of health in the form of osteoporosis, cardiovascular disease, etc. Treatment of the lower parts of the stomach leads to stimulation and revitalization of the ovaries, and thus to the establishing of normal hormonal status and extension of vitality and slowing down aging. Stimulation of the higher zones of the stomach will solve the long-standing problems with digestion and constipation, or body weight will be regulated, taking into account that the functioning of overall metabolism has been accelerated.

Some patients treated their frontal area and could not believe that they got rid of their ill sinuses. The list of experiences is too long to list all of them, but it is important to emphasize that POLARAID has positive impact on all aspects of health.

A very important thing that must be mentioned is that PolarAid does not have any self-radiation, magnetism and alike. It is a pure science, i.e. the effects of physics.

It simply fosters in multiple ways the energy inflow (bioenergy) in your body inciting it to cure itself in a completely natural way, which is anyhow the only possible solution. Essentially, you have in your body all self-healing mechanisms and natural remedies that function perfectly, with no danger of overdosing. The problem will occur when the energy level has been lowered or when the energy inflow has been disrupted.

During the use of the POLARAID, one may experience certain sensations in the particular part of the body, which may be in the form of stronger pain, stitching, aching, pressure, burning and warming sensation, enhanced bowel function, etc. Those with compromised health will have more conspicuous discomforts. Don't let this frighten you because it indicates that there is a dysfunction on that point, and that the body is currently activating its forces to fix it. These sensations will gradually diminish, until they disappear, that is, until the discomfort has been eliminated totally on that point, and the body has been purged from the collected toxins.

HOW TO USE POLARAID

One of many ways of the application of POLARAID is to put it under the jug with water for 30 minutes. In this way you will get the most powerful healing potion. Instead of dead, useless water you will drink the living and energized water. You will drink clean energy which is indispensable for your body. Tap water which often has odor and bad taste will become soft and

will have sweet, pleasant taste. Some are comparing it with the taste of milk. Due to transport, long standing on the shelves, plastic packaging and so on, even the bottled spring water you buy in stores, has no longer the quality that it had at the moment of bottling. It is desirable to expose it to purification and energizing, in order to eliminate all negative information it picked up on its way from the spring to your home. The same procedure should be carried out with distilled water, because it does not belong to the so-called "living water".

Water is able to remember. I hope it is a well known fact. Some gives it even attributes of life. Therefore it is very important what kind of water we drink. One interesting thing you'll notice is that if you put PolarAid in a bed or a box of your dog or another pet, it will not let you take it back, because they instinctively feel what is good for them. Small children and animals react instinctively and unerringly. It is necessary to mention that if you keep POLARAID in the room where you are staying (living room, bedroom or office), it will clean up the area from harmful electromagnetic radiation, and even negative energies sent by others. **You should always keep it in your vicinity because it is an inexhaustible source of life energy.** Please observe only the mood of your household members or colleagues at work, in the room with POLARAID. You will be pleasantly surprised.

LIFETIME HOME ENERGY THERAPIST

We decided to sell PolarAid at a very affordable price, which is not higher than a box of multivitamin supplements. In addition, a box of supplements will last 1-2 months, while PolarAid has no expiry date and there is no need for its maintenance (which is not the case with crystals). With a small cash investment you will get a lifetime home energy therapists and a friend in trouble. Our wish is to make PolarAid financially available to all those who really want it. Nevertheless, PolarAid can be used by all your family members and even your pets and your plants. My personal opinion is that every home should have thermometer and PolarAid. Your thermometer should be in the drawer, and POLARAID should be used.

Everything shown is the result of many personal experiences of POLARAID users. We hope that your experience will enrich our already great treasure of knowledge about the effects and possibilities of application of this device. These are just some demonstrations of POLARAID effects. Detailed information and user instructions are obtained with POLARAID that you can see in Figure 5.

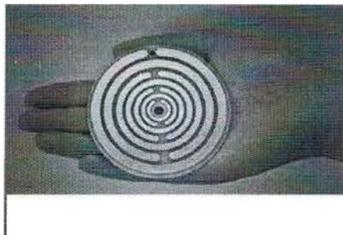

Figure 5 - PolarAid of Georges Lakhovsy

We have to understand that our health is entirely in our hands. Now when you have such a powerful tool that can greatly affect your health, everything really depends on you. It's nice to know that nothing is impossible, right? The future with PolarAid has already begun!
