“MY FELLOW SURGEON WILL NOT BELIEVE ME!”

“In November 2016, I was operated for circulation problems in my left leg and had two stents installed. As soon as the circulation was established, wounds opened on my left foot, particularly between toes and on the heel, which is often the case in this kind of surgery. Being diabetic further slowed the healing of the wounds so I ended up with severe complications. My wife heard of PolarAid™ disc and ordered one. I used the disc as per Dr. Tomic recommendations and particularly,

I applied it under my foot. I kept visiting my surgeon who was very worried that at one point I would need toe amputation. I was very persistent and kept using the disc. In October 2017, the surgeon was stunned to see that toes had completely healed and the colour of skin returned to normal. He said: “I am so sad that I did not take pictures of earlier stages, as my colleagues will not believe me”. Thank you PolarAid™, this is a gift to humanity!” (M.C., Etobicoke, Ontario)

“I have been affected by a fibromyalgia since the age of 40 and have been suffering from a sleep apnea problem for more than 25 years, hence I have a chronic fatigue. I also had to get up at least twice every night to go urinate and get up between four and six times a night to drink water because my throat was constantly dry, and this, despite the use of the CPAP device which moistened my throat. In addition, in recent years, my sinuses seemed constantly

blocked for no reason. So, to unblock them, I had to rinse my nasal passages every day, with saline products.

The condition of chronic fatigue forced me to take long naps in the afternoon, between two and four hours, and this, every day. Fibromyalgia prevented me from doing any exercise, with pain taking over as soon as I moved. When I bought the PolarAid™ disc, I used it every day, on all chakras, and after two weeks, major changes began to manifest themselves. Naps became rarer until they disappeared completely. Fibromyalgia dropped so much that I did not realize I was in pain. I now do 60 minutes of cardio at the gym, five days a week and I do aqua fitness four/five days a week. Not only do I sleep better, but I do not feel the need to go urinate twice during the night. My throat and my sinuses have normalized like magic without any other intervention than the daily use of the PolarAid™. I recommend this wonderful instrument to everyone I love.” (C.C., Gatineau, Quebec)

Dr. Tomic share this with us: “At this time of the year when we are all in mood of sharing and thanking, these are inspiring testimonials gracefully shared by a gentleman and a lady reporting improvements in their health conditions. We wish to thank them and all others who took time to send us their feedback, often very emotional and heartfelt, which we are so respectful for. This is the most beautiful gift we can receive which encourages us to continuously work on building the confidence which this fantastic invention by two great scientists, Georges Lakhovsky and Nikola Tesla, deserves. Best wishes for a great 2018! »

Dr. Dino Tomic currently works as a medical doctor, specializing in gynecology and obstetrics. For the past 20 years, he has explored and experimented with alternative medicines such as quantum and bioresonance medicine, homeopathy, acupuncture, and energy techniques.
